## Animal Agriculture Fact Finding Tour

**Sponsored by  
Indiana Farm Bureau  
District 3**

**June 29-30, 2010**

### Purpose of the trip

Anti-agriculture groups such as the Humane Society of the U.S. HSUS, People for the Ethical Treatment of Animals PETA and others are gaining momentum in their quest to eliminate animal agriculture in the U.S., thus creating a vegan society. For Indiana to fend off these groups and their missions, it is imperative to study and become educated on how these groups can affect our farms and today's modern agricultural practices.

Following this trip, we encourage you to put the information you learned to use and share it with other producers and consumers.

### Cost

Your county Farm Bureau is covering the expenses for you to attend.
