Central Indiana Pork Conference
March 8th, 2016

This is an era of change for the Pork Producer. New challenges and opportunities continue to present themselves. We have developed this conference to provide producers with information and tools to assist you in facing these issues.

Join us for a legislative update, state of the industry update, and outlook on the pork industry. We will also have education sessions on nutrition, disease, and manure transportation.

We invite Pork Producers and anyone involved in the Swine Industry to join us in Frankfort, Indiana as we focus on these and other issues.
