

## 2019 Sheep and Goat Webinar

**Date: Wednesday, February 13, 2019**

**Time: 7:00 – 9:00 p.m. E.S.T. (6:00 to 8:00 p.m. C.S.T.)**

**Viewing sites are listed on page 2 (back) of this flyer**

### Presentation Schedule

♦ **Russell Burgett, Program Director National Sheep Improvement Program**

Using Estimated Breeding Values (EBVs) from the National Sheep Improvement Program: The impact of genetic selection on flock productivity and profitability.

♦ **A.I. Mating Without the Male-Elysia Rodgers, Purdue Extension DeKalb County, CED, Ag/NR**

Artificial Insemination has taken great strides in the last 10 years to be more user friendly for sheep and goat producers. Elysia Rodgers will take a look at the various techniques including cervical insemination and Laparoscopic. She will also discuss the benefits and drawbacks to each technique versus live cover and where to acquire different semen. Included in the semen discussion will be proper thawing techniques and how to check if it is actually live.

### The Purdue Sheep & Goat Website

Important information to producers about health, maintenance and current issues in the sheep and goat industries.
